BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1992-94 with the following exceptions:
$25,000 is provided in each year to fund an Equal Employment Opportunity Coordinator position.
$4,800,000 in FY 1992-93 and $5,000,000 in FY 1993-94 is provided to pay a 2% pay increment to permanent full time employees in the classified service making $20,000 or less per year on July 1, 1992.

Specific reductions include: $200,000 per year in computer services, elimination of all capital outlay expenditures, elimination of all seasonal positions, and elimination of tuition assistance. The House concurs with the Branch Budget recommendation with the exception of adding an additional $15,000 each year for the EEO Coordinator position. $10,000 is also added in FY 1993-94 to cover the costs of the Personnel Board election. If cost of the election exceeds $10,000, the House directs that the Department of Personnel may recover the additional costs up to $10,000 from the Personnel Board

BRANCH BUDGET
The Branch Budget recommends reduced funding for existing services and programs in FB 1992-94.

HOUSE REPORT
The House concurs with the Branch Budget recommendation with the following exceptions. The House Provided $50,000 from the General Fund in each year of the biennium for a grant and technical assistance program to promote community and local government participation in restoring, maintaining, and enhancing local and regional river resources and their associated watersheds, streams, and riparian areas. There is appropriated in the first year of the biennium funds from the General Fund in the amount of $525,000 to be used for a matching grant program for local government public parks and recreation programs on the basis of three state dollars to one local dollar match, with a maximum award of $75,000 from the grant fund. Such funds may be applied for by local governments to the Department of Local Government by showing a plan for the expenditure of the funds which may be used for capital improvements, equipment purchases, or other matters deemed appropriate for the improvement of local government public park facilities. In granting awards under this program during the first year, priority shall be given to the City of Shively, Scott County, Meade County, Franklin County, Jessamine County, Simpson County, and Marshall County. Dollars not awarded in the first year shall be carried forward. The House recommends that the percentage allocation of Community Development Block Grant Funds remains at the 1991 level of 35% for Public Facilities, 10% for Housing, 40% for Economic Development, and 15% for Special Projects.

BRANCH BUDGET

The branch budget maintains or expands all components of the Support Education Excellence in Kentucky (SEEK) program and SEEK-related programs with one exception. Funding for the vocational supplement that provides additional funds for those students enrolled in vocational education program in the local school is eliminated. The base funding level is set at the current level of $2,420 for FY 1992-93 and increased by 3 percent to $2,495 in FY 1993-94. Appropriations for the SEEK program are based on a projected average daily attendance of 572,480. Sufficient funds are included to fully fund the Tier I component of the SEEK program with the equalization level being $280,000. Funding for the Facilities Support Program is maintained at the current level. This program is also equalized at $280,000 in the branch budget. Funds for pupil transportation and exceptional children are maintained at the current level. The branch budget proposes a .7 deduct factor to be applied against the base pupil guarantee in those instances where a student spends a portion of the school day at a state-operated vocational center. This would be applied to the portion of the school day the students attends the vocational center. The branch budget also proposes that a per pupil holdharmless provision be included in the SEEK calculation for each year of the biennium. The branch budget includes funding for the Kentucky Teachers' Retirement System (KTRS) employer match on behalf of local school district personnel. These funds will be remitted to KTRS on behalf of the local school districts.

HOUSE REPORT

The House concurs with the Branch Budget recommendations and adds the following: Included in the appropriation for SEEK and SEEK related program is $92,860,000 in FY 1992-93 and $104,100,000 in FY 1993-94 in General Fund-Lottery proceeds.

SENATE REPORT

The Senate concurs with the House recommendations with one exception. The .7 deduct factor to be applied against the base per pupil guarantee in those instances where a student spends a portion of the school day at a state-operated vocational center is changed to .3.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The branch budget recommends reduced funding for existing services and programs in several areas. Administrative/operational funds are reduced by 6 percent in FY 1992-93 and funding for the principal/superintendent assessment centers and extended school services is reduced. Four programs - experimental school psychologists, experimental school counselors, remediation and certified personnel evaluation - are eliminated. Additional funding is provided for pre-kindergarten, family resource/youth service centers, staff development, regional service centers and the education professional standards board.

HOUSE REPORT

The House concurs with the Branch Budget recommendations with the following exceptions: All funding for the regional service centers is deleted in each year of the biennium; funding for the Family Resource/Youth Service Centers is reduced by $3,000,000 in each year of the biennium. In addition, the House increases funding for the Extended School Services Program by $8,057,000 in FY 1992-93 and $7,599,000 in FY 1993-94. Included in the above General Fund appropriation is $39,000 in each year of the biennium to continue the statewide information service relative to alcohol/drug abuse among Kentucky's coal mining workforce. This project relating to drug abuse shall be conducted by the Kentucky Department of Education through Kentucky State University in accord with the Kentucky State University proposal dated January 2, 1992.

SENATE REPORT

The Senate concurs with the Branch Budget recommendations with the following exceptions: Funding for the Family Resource/Youth Service Centers is reduced by $3,000,000 in each year of the biennium. Included in the General Fund appropriation is $39,000 in each year of the biennium to continue the statewide information service relative to alcohol/drug abuse among Kentucky's coal mining workforce. This project relating to drug abuse shall be conducted by the Kentucky Department of Education through Kentucky State University in accord with the Kentucky State University proposal dated January 2, 1992. No grants to local school districts for the Extended School Services program shall be approved unless the application includes the following: a complete description of the program; the manner in which the program will operate; the projected number of students to be served and the criteria to be used in selecting students for participation; and the number of certified and non-certified staff necessary for program operations and the criteria to be used in selecting staff. Instructional supplies shall only be authorized if a need is demonstrated and the district does not have the supplies and materials available. In addition, if a local school district uses funds from the Extended School Services program to provide transportation services, students not enrolled in the Extended School Services program may use these services provided their use does not increase the cost of providing the transportation. Included in the General Fund appropriation is $400,000 in each year of the biennium for the minority teacher recruitment and training program.

CONFERENCE REPORT

The Conference concurs with the Senate with the following exceptions: No additional funds are provided for the regional service center in either year of the biennium. Funding for the Extended School Services program is increased by $6,957,700 in FY 1992-93 and $4,099,500 in FY 1993-94. Any funds appropriated for the Extended School Services program that are not expended in the first year of the biennium shall not lapse to the General Fund but shall continue into the second year for the purposes designated. Eligible school districts shall receive funds for developmentally appropriate preschool programs required by KRS 157.226 and 157.3175 based on guidelines and procedures established by the State Board for Elementary and Secondary Education. These districts must work with existing preschool programs to: (1) coordinate the recruitment of eligible children to avoid duplication of programs and services to children who are eligible for preschool programs through other sources of public funds and, (2) maximize the use of Head Start funds to serve as many four (4) year old children as possible, including certification by the Head Start director that the program is fully utilized.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends the transfer of funds previously requested in the Department of Social Insurance-Welfare Reform. The Branch Budget recommends a reduction in central office staff.

HOUSE REPORT

The House concurs with the Branch and directs that, whereas the budget for the Department for Medicaid Services Administration and Benefits for FY 1993-94 is funded on the assumption that the Federal allowance of the current provider assessments under KRS 205.575-578 scheduled to terminate on June 30, 1993, will be revised prior to such date so as to conform to the provisions of the governing federal regulations, the House directs that action on the provider tax be instituted prior to June 30, 1993 in order to ensure that the program shall be eligible to continue the federal funds participation. The Secretary of the Cabinet for Human Resources and the Commissioner of the Department for Medicaid Services shall provide notice to the Houses and Senate or the Interim Joint Committee on Appropriations and Revenue confirming compliance with this directive.

The House also includes in the salary and benefits costs : 1) no funds for non-merit positions in the Commissioner's Office with the exception of 1 commissioner; 2) funds for merit positions filled by employees who were or will be employed in a non-merit position in the Commonwealth of Kentucky between December 1, 1987 and June 30, 1994 at a salary equal to or less than the employee's merit-position salary immediately prior to the employee's first non-merit position in the Commonwealth plus corresponding annual merit increments given to all merit employees for each year since or if no such merit position was held, at a salary equal to or less than the entry level of the present merit position; and 3) funds for other non-merit and merit positions filled on January 31, 1992. Appropriated funds for salary and benefit costs shall be allocated following the General Provisions of the Appropriation Act within the Department for Medicaid Services. Any necessary termination of classified employees shall be done in accordance with KRS 18A.113, KRS 18A.1131, and KRS 18A.1132.

SENATE REPORT
The Senate concurs with the House with the exception that the Senate deletes the language directing that action on the provider tax be instituted prior to June 30, 1993.

The Senate directs that if the Medicaid Program runs a deficit in any fiscal year , the Department for Medicaid Services shall institute a deficit reduction plan which balances program expenditures with available funds by reducing the amount of reimbursement paid to participating medical providers. No reduction shall be made in the level of coverage for services. The Department shall compute the amount of reimbursement reductions as follows: (a) Determine the total amount of the program deficit; (b) Determine the percent of total Medicaid payments received by each covered service category; (c) Calculate the amount of reduction in each service category by multiplying the total amount of program deficit by the percent of total payments received by each service category; and (d) Reduce reimbursement levels for each service category by an amount equal to the results of the calculation in (c). Within thirty (30) days prior to instituting the deficit reduction plan, the Department shall file with the Legislative Research Commission a document detailing the amount of the deficit and the total reductions in reimbursement to medical providers to be made.

The Senate directs that KRS 205.575 (6) (7); KRS 205.576 (7) (10) (11) (12); KRS 205.577 (6) (9) (10) (11); and KRS 205.621 be suspended for the biennium so as to allow variation in the determination of levels of payments to vendors and funding of the Medicaid program expenditures for services.

The Senate also directs that: (1) No hospital may be reimbursed from both the Quality and Charity Care Trust Fund and the Hospital Indigent Care Assurance Program (HICAP) ,as established by KRS 205.575, for the same service to the same patient. (2) Any hospital which knowingly violates this provision shall be subject to a penalty equal to three times the amount of the improper charge to the funds, which amount shall be credited to the General Fund. (3) The Secretary of Human Resources shall have the authority to secure such patient information as needed from the participating facilities in order to determine compliance and enforce this provision

The Senate addresses non-merit positions and salaries for non-merit employees reverting to merit positions in the Administration and Program Support appropriation unit and the Special Provisions of the Act.

CONFERENCE REPORT
The Conference concurs with the Senate with the exception that the Conference modifies the language as follows:

The Conference concurs with the Senate and modifies the language as follows: The General Assembly also directs that: (1) No hospital may be reimbursed from both the Quality and Charity Care Trust Fund and the Hospital Indigent Care Assurance Program (HICAP), as established by KRS 205.575, for the same service to the same patient. (2) Any hospital which willfully violates this provision shall be subject to a penalty equal to three times the amount of the improper charge to the funds, which amount shall be credited to the General Fund. (3) The Secretary of Human Resources shall have the authority to secure such patient information as needed from the participating facilities in order to determine compliance and enforce this provision. Each facility billing and receiving reimbursements from the Quality and Charity Care Trust Fund shall be required to identify each patient by social security number and indicate whether the patient is classified as INDIGENT or MEDICALLY NEEDY.

The Conference also deletes the Senate language concerning provider reimbursement as part of a deficit reduction plan and the suspension of the associated KRS cites be deleted, with the exception of KRS 205.575 (6) and (7), and insert allowance of administrative funding with respect to the suspension of KRS 205.575 (6).

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding to provide Medicaid coverage for Early and Periodic Screening, Diagnosis and Treatment (EPSDT) as per OBRA 90 federal mandate. The Branch Budget states that all hospitals participating in the HICAP assessment program will be required to provide outpatient services for those eligibles who are currently receiving outpatient services including certified individuals and families with incomes below 100% of poverty. The Branch Budget is constructed to reflect a reduction of $41 million in the disproportionate share payments made to hospitals which were codified in SB 239 and HB 21 with the funds used to fund the program services. The Branch Budget has constructed the FY 1993-94 on the assumption that adjustments to the provider tax legislation will be made to bring Kentucky's taxing process into conformity with the changes in the federal law prior to its June 30, 1993, expiration date.

HOUSE REPORT

The House concurs with the Branch and directs that, whereas the budget for the Department for Medicaid Services Administration and Benefits for FY 1993-94 is funded on the assumption that the Federal allowance of the current provider assessments under KRS 205.575-578 scheduled to terminate on June 30, 1993, will be revised prior to such date so as to conform to the provisions of the governing federal regulations, the House directs that action on the provider tax be instituted prior to June 30, 1993 in order to ensure that the program shall be eligible to continue the federal funds participation. The Secretary of the Cabinet for Human Resources and the Commissioner of the Department for Medicaid Services shall provide notice to the Houses and Senate or the Interim Joint Committee on Appropriations and Revenue confirming compliance with this directive.

No funds are included for additional Nursing Facility Medicaid funded beds.

The House directs that the language in HB 486 requiring hospitals participating in the HICAP program to provide outpatient care for eligibles be deleted.

SENATE REPORT

The Senate concurs with the House with the exception that the Senate deletes the language directing that action on the provider tax be instituted prior to June 30, 1993.

The Senate directs that if the Medicaid Program runs a deficit in any fiscal year , the Department for Medicaid Services shall institute a deficit reduction plan which balances program expenditures with available funds by reducing the amount of reimbursement paid to participating medical providers. No reduction shall be made in the level of coverage for services. The Department shall compute the amount of reimbursement reductions as follows: (a) Determine the total amount of the program deficit; (b) Determine the percent of total Medicaid payments received by each covered service category; (c) Calculate the amount of reduction in each service category by multiplying the total amount of program deficit by the percent of total payments received by each service category; and (d) Reduce reimbursement levels for each service category by an amount equal to the results of the calculation in (c). Within thirty (30) days prior to instituting the deficit reduction plan, the Department shall file with the Legislative Research Commission a document detailing the amount of the deficit and the total reductions in reimbursement to medical providers to be made.

The Senate directs that KRS 205.575 (6) (7); KRS 205.576 (7) (10) (11) (12); KRS 205.577 (6) (9) (10) (11); and KRS 205.621 be suspended for the biennium so as to allow variation in the determination of levels of payments to vendors and funding of the Medicaid program expenditures for services.

The Senate also directs that: (1) No hospital may be reimbursed from both the Quality and Charity Care Trust Fund and the Hospital Indigent Care Assurance Program (HICAP), as established by KRS 205.575, for the same service to the same patient. (2) Any hospital which knowingly violates this provision shall be subject to a penalty equal to three times the amount of the improper charge to the funds, which amount shall be credited to the General Fund. (3) The Secretary of Human Resources shall have the authority to secure such patient information as needed from the participating facilities in order to determine compliance and enforce this provision

CONFERENCE REPORT

The Conference concurs with the Senate with the exception that the following modifications:

The Conference modifies the Senate language as follows: The General Assembly also directs that: (1) No hospital may be reimbursed from both the Quality and Charity Care Trust Fund and the Hospital Indigent Care Assurance Program (HICAP), as established by KRS 205.575, for the same service to the same patient. (2) Any hospital which willfully violates this provision shall be subject to a penalty equal to three times the amount of the improper charge to the funds, which amount shall be credited to the General Fund. (3) The Secretary of Human Resources shall have the authority to secure such patient information as needed from the participating facilities in order to determine compliance and enforce this provision. Each facility billing and receiving reimbursements from the Quality and Charity Care Trust Fund shall be required to identify each patient by social security number and indicate whether the patient is classified as INDIGENT or MEDICALLY NEEDY.

The Conference also deletes the Senate language concerning provider reimbursement as part of a deficit reduction plan and the suspension of the associated KRS cites be deleted, with the exception of KRS 205.575 (6) and (7), and insert allowance of administrative funding with respect to the suspension of KRS 205.575 (6).

The Conference also directs that the following language with respect to the Quality and Charity Care Trust Agreement be included in the Department for Medicaid Services and the University of Louisville sections of the Operating Budget HB 468:
Notwithstanding any other provision of this act or law, in any fiscal year for which all the parties to the Quality and Charity Care Trust Agreement so agree, the General Fund appropriation to fulfill the Commonwealth's contractual obligation relating to the Quality and Charity Care Trust Agreement or any portion thereof, together with any other funds paid to the Quality and Charity Care Trust contractual obligation of the parties , or any portion thereof, shall be transferred to the Department for Medicaid Services as part of its Restricted Fund appropriation for Benefits. In any fiscal year for which all the parties to the Quality and Charity Care Trust Agreement do not agree to transfer all or any portion of the Trust's revenues to the Department of Medicaid Services for Benefits, the Quality and Charity Care Trust shall operate per its contractual provisions.

The Conference reduces the current year General Fund Budget by $250,000 based upon the projected lapse information provided by the Governor's Office for Policy and Management.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1992-94. Road Fund monies in the amount of $27,750,000 in FY 1992-93 and $27,750,000 in FY 1993-94 are recommended to support part of the operations of the State Police. Although the authorized sworn officer complement is 1,000 officers, funding in the Branch Budget is sufficient to support only the current actual complement of 970 officers. Monies to purchase motor vehicles are reduced from the current year appropriation of $2.9 million, to $975,000 in each year of the next biennium. These monies will allow the purchase of 75 motor vehicles each year, compared to the 193 motor vehicles that are budgeted to be purchased in the current year. Motor fuels monies are cut by $1 million, to $1.6 million in each year of the next biennium. Funding for maintenance activities and supplies are reduced by $2 million each year. Monies to support maintenance agreements on items such as the Integrated Criminal Apprehension Program (ICAP) System, are not budgeted. $824,900 in each fiscal year of the next biennium of General Fund monies are provided to support 85 Facilities Security officers. $1.4 million in Restricted Fund monies are expected to be generated each year from charges to governmental agencies (for security) to complete the support of this activity.

HOUSE REPORT
The House concurs with the Branch Budget recommendations.

SENATE REPORT
The Senate concurs with the House.

CONFERENCE REPORT
The Conference concurs with the House and the Senate, with the following exception: General Fund monies totaling $1 million in each year of the next biennium have been removed from the State Police budget and replaced with $1 million, each year of Road Fund monies.

BRANCH BUDGET

The Branch Budget recommends reduced funding for current services in the Justice Administration appropriation unit. The Office of the Secretary's budget for FY 1992-93 totals $648,500, which represents an 8% reduction from current year funding levels. In the Grants Management Program, General Fund recommendations for the Gateway Juvenile Diversion Center in Mt. Sterling total approximately $202,000 in FY 1992-93 and $208,000 in FY 1993-94. This compares to the current year revised appropriation to Gateway of $238,000. General Fund monies recommended to support contracts for forensic pathological services are reduced by $44,100 in FY 1992-93 (from $773,100 to $729,000). These General Fund monies cover contracts with the University of Kentucky, University of Louisville, Trover Clinic (Madisonville), St. Luke (N. Kentucky) and other forensic pathological service providers. Restricted Fund monies budgeted from the DUI Service Fee receipts total $1,003,400 in FY 1992-93 and $1,004,000 in FY 1993-94. These monies are recommended at the agency request level.

The House directs that any annual salary increments for these programs that is to be supported by state appropriations be governed by the salary provisions that have been set forth in the General Provisions of the Appropriations Act. General Fund monies are provided in the amount of $186,900 in FY 1993-94 to the Justice Cabinet to construct a secure Juvenile Detention Facility in McCracken County. The Justice Cabinet may contract with fiscal court, or a private provider, to operate the secure juvenile facility. This facility shall meet any American Correctional Association standards which apply to juvenile detention facilities. Furthermore, the House recommends that the proposed Eastern Kentucky secure juvenile facility, which presently resides in the branch recommended budget of the Cabinet for Human Resources, be moved to the Justice Cabinet budget. $88,200 in FY 1992-93 and $88,100 in FY 1993-94 is provided from the General Fund for debt service on a $1 million bond issue, that was sold in FY 1991-92. $250,000 in FY 1993-94 are provided for operating costs associated with the Eastern Kentucky facility. The House expands the appropriations units for the Department of Adult Institutions to specifically identify each adult institution as a separate appropriation unit, specify an appropriation unit for Private Prisons, and an appropriation unit identified as Adult Institutions Management/Operations, which is to include the following programs: Adult Institutions Management; Division of Operations, excluding Private Prisons; Educational Programs; Division of Mental Health; Sex Offender Program; Division of Correctional Industries; and Agricultural Production/Dietary Services.

The Secretary of the Corrections Cabinet, upon written recommendation by the Commissioner of Adult Institutions, may request transfer of any appropriated funds for the Department of Adult Institutions among and between the appropriation units subject to compliance with the provisions identified in Part III, Sections 1 and 8 of the Appropriations Act and the Statutory Budget Memorandum.

The House provides additional General Fund support totalling $1,097,800 in FY 1992-93 and $3,608,800 in FY 1993-94 for a 300-bed male prison, which is to be operated under a contractual arrangement pursuant to KRS Chapter 197.

The House also provides General Fund support totalling $150,000 each fiscal year in the Capital Budget for the lease/purchase requirements relating to the Metal Office Furniture Component System to be located at the Eastern KY Correctional Complex. This industry shall be self-sustaining by FY 1994-95 and be capable of providing the remaining lease/purchase payments.

The House authorizes the Secretary of Corrections, upon written recommendation by the Commissioner of Adult Institutions, to utilize up to $400,000 in FY 1992-93 and $450,000 in FY 1993-94 any available Restricted Funds appropriated to the Corrections Cabinet for the purpose of re-establishing the prison farms operations. Any funds provided for this purpose shall be reported to the Interim Joint Committee on Appropriations and Revenue pursuant to, and in compliance with, the provisions identified in Part III, Sections 1 and 8, of the Appropriations Act and Statutory Budget Memorandum. All expenditures for this purpose shall be communicated to the Interim Joint Committee on Appropriations and Revenue on a quarterly basis.

(Continued)

The inmate population of the state's adult penitentiaries during the 1992-94 Biennium shall not exceed the operational capacities for which funding was provided by the 1990 KY General Assembly, and adjusted for additional bedspace which may become operational during the 1992-94 Biennium as a result of the construction of new dormitories, segregation units, and new adult correctional facilities. All contractual agreements in effect as of January 1, 1992, to house state prisoners shall be fully utilized, prior to any additional beds being made available through contractual agreements between the Corrections Cabinet and public agencies or private vendors. Due to the financial condition of the Commonwealth, any new beds which are contracted to house sentenced state prisoners after June 30, 1992, shall receive no cost-of-living adjustment in FY 1992-93 or FY 1993-94. The Corrections Cabinet shall report monthly to the Interim Joint Committee on Appropriations and Revenue the status of all bedspace utilized to house state prisoners, including state penitentiaries, adult correctional facilities, local and/or regional jails, and halfway houses. This report shall identify bedspace and inmate population by institution/facility.

Sentenced state prisoners may be classified as minimum security provided they are within sixty (60) months of eligibility of parole and score 14, or less, on the classification document, and these inmates may be housed in any statutory adult correctional facility or penitentiary, as defined by KRS Chapters 196 and 197. Adult correctional facilities operated by private providers, as defined in KRS 197.500 (3), which house state prisoners classified as minimum security pursuant to this authority, shall be enclosed with a secure perimeter.

SENATE REPORT
The Senate concurs with the Branch Budget, with the following exceptions: The Senate provides for a 300-bed male minimum security prison to be operated under a contractual agreement pursuant to KRS 197; provides for 20 beds to be double-bunked at the Western KY Correctional Complex beginning in FY 1992-93, and 20 beds to be double-bunked at the Eastern KY Correctional Complex, beginning in FY 1993-94.

The Senate specifies the Request for Proposal for the 300-bed minimum security prison shall be issued by June 1, 1992; the vendor responses to be received by July 1, 1992; the contract to be awarded by August 1, 1992; and the facility to be operational by April 1, 1993.

The Senate expands the appropriations units for the Department of Adult Institutions to specifically identify each adult institution as a separate appropriation unit, specify an appropriation unit for Private Prisons, and an appropriation unit identified as Adult Institutions Management/Operations, which is to include the following programs: Adult Institutions Management; Division of Operations, excluding Private Prisons; Educational Programs; Division of Mental Health; Sex Offender Program; Division of Correctional Industries; and Agricultural Production/Dietary Services. The Secretary of Corrections is authorized to transfer funds among and between appropriations units, but shall report all such transfers to the Interim Joint Committee on Appropriations and Revenue.

The Senate deletes the provisions regarding the 2% salary adjustments in FY 1992-93 for employees earning $20,000, or less, per year, and provides a $360.00 salary adjustment for such employees. The Senate also deletes the provisions regarding the 2% salary reduction in FY 1992-93 for employees earning in excess of $50,000 per year. The Senate provides that all employees, other than those earning $20,000, or less, per year shall receive no salary increment in FY 1992-93. The Senate provides that all employees, except those earning in excess of $50,000 per year shall receive a 3% salary increment in FY 1993-94, and those employees earning in excess of $50,000 per year shall receive a 1% salary increment in FY 1993-94.

CONFERENCE REPORT
The Conference concurs with the House, with the following exceptions: The Conference provides $1,023,400 in FY 1992-93 and $3,366,000 in FY 1993-94 for a 300-bed male minimum security prison, which is to be operated under a contractual arrangement pursuant to KRS Chapter 197, and deletes the definition relating to the classification of minimum security inmates and the housing of such inmates in privately-operated facilities.

The Conference specifies the Request for Proposal for the 300-bed minimum security prison shall be issued by June 1, 1992; the vendor responses to be received by July 1, 1992; the contract to be awarded by August 1, 1992; and the facility to be operational by March 1, 1993.

(Continued)

The Conference replaces the Restricted Funds support with General Fund support for the re-establishment of the prison farms operations.

The Conference deletes the conditional statement that any new contracts to house sentenced state prisoners after June 30, 1992, shall receive no cost-of-living adjustment in FY 1992-93 or FY 1993-94.

The Conference specifies that in the event state felon populations exceed the projections provided to the 1992 Kentucky General Assembly and included in the 1992-94 Budget Workpapers for the Corrections Cabinet, the Corrections Cabinet is authorized to double-bunk the following facilities after all available bedspace, including state-owned or contracted bedspace, has been utilized. The Corrections Cabinet is authorized to begin proceedings to procure the necessary beds for double-bunking when inmate population attains a level of ninety-five percent (95%) of the state's total institutional operational capacity. The Corrections Cabinet shall report to the Interim Joint Committee on Appropriations and Revenue any use of these beds, and shall certify that the state felon population exceeds the 1992-94 budgeted inmate population projections. The Corrections Cabinet shall identify by institution, the number of inmates housed pursuant to this authority. The Corrections Cabinet shall also identify the number of days in which inmates are housed in double-bunked facilities. The facilities which may be double-bunked and the number of inmates authorized to be double-bunked pursuant to this authority are as follows:

INSTITUTION	FY 1993	FY 1994
Western Kentucky Correctional Complex	20	20
Roederer Correctional Complex	45	45
Blackburn Correctional Complex	24	24
Frankfort Career Development Center	20	40
Northpoint Training Center	16	16
Kentucky State Reformatory	10	10
Bell County Forestry Camp	30	50
Eastern Kentucky Correctional Center		20

In the event the state's felon population falls below the projections provided to the 1992 Kentucky General Assembly and included in the 1992-94 Budget Workpapers for the Corrections Cabinet, bed reductions shall be made in the following priorities: (1) double-bunked facilities; (2) controlled intake (pre-admission beds); (3) private vendor contract facilities, but not less than the minimum permitted pursuant to contract agreements; (4) halfway houses; and (5) local jail beds. In the event inmate population projections are revised to be less than those provided to the 1992 Kentucky General Assembly, the revised estimates shall be provided to the Interim Joint Committee on Appropriations and Revenue prior to any reductions in bedspace, and any funds provided for the operations of such beds shall lapse to the credit of the General Fund.

Any facility under contractual agreements to house sentenced female state felons shall be required to comply with the provisions set forth in KRS 439.580 to 439.620 only.

The Conference deletes the $150,000 in each fiscal year for the lease/purchase payments relating to the Metal Office Furniture Component System at the Eastern KY Correctional Complex.

The Branch Budget eliminates gate fees paid to state felons who are released from custody; reduces payments for contractual agreements with halfway houses for housing state felons; and cancels the contractual agreement for the technical parole violator diversion project in Jefferson County in FY 1991-92. Additional General Fund support totalling $3,126,900 in FY 1992-93 and $5,127,300 in FY 1993-94 is provided for 310 additional beds under contract with local jails to house state felons; and 115 additional beds under contract with halfway houses to house state felons. Additional General Fund support is provided to implement a Substance Abuse Counseling Program in Jefferson County in FY 1992-93, and an additional Substance Abuse Counseling Program in Fayette County in FY 1993-94. The Branch Budget includes Restricted Funds totalling $148,700 in FY 1991-92 for increased expenses relating to the Jefferson County Misdemeanant Program.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1992-94. Restricted funds from the Conservation Equipment Loan Revolving Fund of $693,500 in FY 1992-93 and $757,100 in FY 1993-94 are used for operating expenses. Restricted funds from the Oil Overcharge Fund of $38,000 in each year are used for operating expenses, consistent with federal guidelines. State aid to the 121 Conservation Districts is reduced from $250,000 to $200,000 each year. Additional General Fund monies of $100,000 is provided each year for the forest fire suppression budget, bringing the total Necessary Government Expense budget to $240,000 for this purpose. Additional restricted funds from boat registration fees of $56,800 in FY 1992-93 and $27,900 in FY 1993-94 are provided for one additional water patrol officer for Yatesville Lake. The Kentucky River Locks and Dams program is funded with General Fund support of $400,000 in FY 1992-93 and $426,000 in FY 1993-94.

HOUSE REPORT

The House concurs with the Branch Budget with the exception of providing $50,000 each year from the General Fund to restore the state aid to conservation districts to its historic level of $250,000 each year.

The House provides that the Cabinet evaluate an energy conservation program for state government buildings, in light of testimony that Kentucky state government's energy costs are about $40 million annually, and that the Cabinet's Institutional Conservation Program for schools and hospitals has yielded a 25% payback for participating institutions.

SENATE REPORT

The Senate concurs with the House with the exception of providing General Fund monies of $652,400 in FY 1992-93 and $668,300 in FY 1993-94 and restricted funds of $17,700 in FY 1992-93 and $44,300 in FY 1993-94 for the Equipment Revolving Loan Fund. These additional monies effectively provide that only the interest generated from the Fund of $200,000 each year will be used for operation of the Program.

CONFERENCE REPORT

The Conference concurs with the Senate.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in the Commissioner's Office and the Division of Water. Additional restricted funds from the Hazardous Waste Assessment Fund are used for operating the Environmental Response Program in the Division of Water ($138,900 in FY 1992-93 and $146,500 in FY 1993-94) and for the Uncontrolled Sites Program in the Division of Waste Management ($611,100 in FY 1992-93 and $658,000 in FY 1993-94). Additional restricted funds are recommended to replace current General Fund support for the following programs: the Underground Storage Tank Fund, $445,100 in FY 1992-93 and $437,000 in FY 1993-94; the Waste Tire Fund, $30,000 each year; the Resource Conservation and Recovery Fund, $37,000 in FY 1992-93.

The contract for outside legal services for the Maxey Flats litigation is transferred to the Department of Law in the amounts of $250,000 in FY 1992-93 and $100,000 in FY 1993-94. Contract expenses of $250,000 each year for outside laboratory tests is eliminated.

The Branch Budget recommends, in anticipation of the requirements mandated by the federal Clean Air Act Amendments of 1990, conversion of the Air Quality Division's funding to an emission fee structure beginning July 1, 1992. The recommended General Fund support is solely for the Asbestos Program, as is $70,000 each year in related restricted funds. Restricted funds of $4,832,600 in FY 1992-93 and $5,317,800 in FY 1993-94 are provided for the new clean air program requirements.

Forty new positions are authorized for the Air Quality Program and three for the Department of Law, on a phased basis. Personnel and operating expenses for these positions are $456,200 in FY 1992-93 and $1,066,800 in FY 1993-94. Included is the Department of Law funding of $75,600 in FY 1992-93 and $112,100 which is an operating transfer. Contractual expenses are provided for the following purposes: modeling analysis for emissions reduction requirements ($300,000 in FY 1992-93), computer program for automated fee billing and accounting system ($80,000 in FY 1992-93), and the Small Business Technical Assistance Program ($22,500 in FY 1992-93 and $142,500 in FY 1993-94). Capital outlay expenses of $369,300 in FY 1992-93 and $212,500 in FY 19923-94. The House concurs with the Branch Budget with the exception of providing that the General Fund budget be reduced by $50,000 in FY 1992-93 and $35,000 in FY 1993-94, to be budgeted in the Department for Natural Resources to restore state aid to the Commonwealth's 121 conservation districts, for the purpose of promoting conservation practices to correct erosion and water quality problems.

-Continued_

As to the 1990 Federal Clean Air Program implementation, the House recommends a lower expansion level reflecting a more gradual phase in of the new program requirements, and decreases the computer program for billing purposes to $40,000. It is recommended that the General Fund participate in funding the Air Quality Division's programs during the biennium at the level of $2,568,400 in FY 1992-93 and $2,662,800 in FY 1993-94, and that the emission fee structure provide receipts of $2,131,200 in FY 1992-93 and $2,664,000 in FY 1993-94.

It is recommended that the Governor appoint a task force to assist the Cabinet in the implementation of the federal Clean Air Act Amendments. The task force shall be comprised of representatives of industry, the environmental community, and the Cabinet, and shall report quarterly to the Legislative Research Commission for referral to appropriate committees.

The Department shall coordinate and cooperate with the Department of Parks concerning the its underground storage tanks and compliance with program requirements.

The Department shall provide to the Legislative Research Commission for referral to the appropriate committees quarterly reports of the status of the permit tracking and time and accounting systems.

SENATE REPORT
The Senate concurs with the House Report with the exception of funding for the 1990 Federal Clean Air Program implementation. The Senate recommends that the Program be expanded at the same level as the Branch Budget recommendation and that it be financed with restricted funds totalling $4,832,600 in FY 1992-93 and $5,317,800 in FY 1993-94, and not with General Fund monies of $2,568,400 in FY 1992-93 and $2,662,800 in FY 1993-94. The appointment of a task force is not recommended.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding six data processing positions in this appropriation unit in support of the Cabinet's centralized Vax-4000 computer system which were funded in the programmatic units in FY 1991-92. Four positions and associated operating expenses are reduced from budgeted FY 1991-92 levels. No capital outlay funding was provided for technology improvements except for $14,400 in FY 1992-93 and $4,800 in FY 1993-94 for three computers and a printer necessary to replace manual equipment in the Hearings Division.

The Branch Budget recommends that the Cabinet Secretary be authorized to transfer appropriations among and between the appropriation units in the Cabinet.

HOUSE REPORT

The House concurs with the Branch Budget with the exception of providing that any monies saved from the consolidation and coordination of administrative functions within the Cabinet shall be redirected for the purchase of information technology, in the approved Information Resources Plan, in order to better coordinate the Cabinet's various databases and to improve communication between the Cabinet offices, including the Frankfort offices located in 22 separate buildings. Prior to expenditure of such monies, the Cabinet shall document such savings and its spending plan, and transmit such to the Interim Joint Committee on Appropriations and Revenue, and the State Budget Director. Authority is hereby provided to expend this appropriation in the capital budget if necessary.

The House does not concur with the provision that the Cabinet Secretary be authorized to transfer appropriations among and between the appropriation units in the Cabinet.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends combining the State Racing Commission and the Harness Racing Commission. Branch Budget numbers reflect a $358,000 reduction which represents reduced personnel resulting from the combination. A $3,750,000 recommendation of General Fund dollars in FY 1993-94 is for the implementation of the Breeders' Award Fund program.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: Restricted Funds in the amount of $3,750,000 are appropriated in FY 1993-94 for the Breeders' Fund Award fund established pursuant to enabling legislation. (HB 749)

In the event Restricted Funds in the amount of $3,750,000 are not generated by the mechanisms provided, the Secretary of the Finance and Administration Cabinet is authorized to transfer from the General Fund surplus account on a dollar-for-dollar basis amounts necessary to provide a total Breeders' Award fund program level of $3,750,000 in July 1993.

In authorizing such a certification for the use of General Fund monies, the General Assembly requires that the Restricted Funds accruing to the Breeders' Award Fund as of July 1, 1993, shall be expended before any amount of General Fund dollars are obligated.

If the total Restricted Funds generated by July 1, 1993 exceed the appropriation authorized, the Kentucky Racing Commission may expend additional funds for the Breeders' Awards upon approval from the Secretary of the Finance and Administration Cabinet.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1992-94, as well as provides additional funding of $690,800 in FY 1992-93 in restricted funds to provide for operating costs and 17 additional employees for 11 new and/or expanded facilities authorized by the 1990 General Assembly. Additional General Fund support of $423,000 and restricted fund support of $1,351,000 is recommended in FY 1993-94 to provide for operating costs and 24 new employees for the 13 facilities which were expanded in FY 1992-93 which includes the proposed opening of new lodges at Blue Licks and Dale Hollow State Parks.

The Branch Budget also recommends $30,500 in FY 1992-93 and $10,369,000 in FY 1993-94 for debt service on capital construction projects totaling $101,050,000 in FY 1992-93. Included in the Capital projects is $100,000,000 of bond funds for unspecified projects to revitalize and rebuild the park system. Additionally, $750,000 for maintenance and upgrade of park roads and parking lots is provided in the Department of Transportation's budget for each year of the 1992-94 biennium.

HOUSE REPORT

The House concurs with the Branch Budget with the exception that proceeds from the $100 million bond issue be utilized only for non-recurring renovation and rehabilitation of existing state park facilities and for significant revenue producing new public facilities. The list of recommended projects will be forwarded to the General Assembly at least thirty days prior to the anticipated extraordinary session of the General Assembly for consideration and review. Under no circumstances would any project be undertaken or initiated without prior approval of the General Assembly. In the event that the total debt service appropriation is not required for the proposed $100 million bond issue, then any available amount be utilized to fund either the Clean Air Act program or to provide up to $3,300,000 for Major Maintenance and Small Construction Projects in the Park System above the level funded in the Capital Budget.

The House deauthorizes funds for the Green River Infrastructure project.

The Parks Department shall coordinate and cooperate with the Natural Resources Cabinet concerning compliance with underground storage tanks program requirements.

SENATE REPORT

The Senate concurs with the House Report with the exception that any available debt service for the $100 million bond issue will not be used to fund the Clean Air Act program.

CONFERENCE REPORT

The Conference concurs with the House and Senate with the exception to provide that no excess debt service for the $100 million bond issue can be used for any purpose.

The Branch Budget also recommends replacing General Funds with Restricted funds of $200,000 each year of the biennium for the North American International Livestock Exposition Show.

The Branch Budget also includes $1,170,500 of restricted funds in FY 1991-92 to provide for increases in personnel costs due to salary upgrades and federal wage law and operating costs increases at the Kentucky Fair and Exposition Center and the Commonwealth Convention Center.

The Branch Budget recommends $2,567,000 in FY 1993-94 for debt service on capital construction projects totaling $25 million, which include $22 million to expand the exhibition space of the South Wing and $3 million for completion of the Access Road. The Branch Budget is also recommending $612,500 in restricted funds and $937,500 in investment income for the biennium for Miscellaneous Major Maintenance projects.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch budget recommends reduced funding for existing services and programs in FB 1992-94, as well as provides additional funding of $50,000 in FY 1993-94 for publication of a fish identification booklet for anglers in the Fisheries Management Program. The Information and Education program are recommended to receive additional funds of $95,000 in FY 1993-94 for the development of watchable wildlife booklets for the Wildlife Appreciation Education Program.

The Department's recommendation provides for an increase in the license fee structure, to become effective with licenses sold on or after January 1, 1993.

Capital Construction projects totaling $1,675,000 in FY 1992-93 and $1,442,000 in FY 1993-94 are recommended with restricted funds. Included in the Capital Construction projects are $1 million in FY 1992-93 for the Land Acquisition Pool, $475,000 each year of the biennium for expansion of the Game Farm Education Center and $767,000 in FY 1993-94 for Shanty Hollow Dam repairs.

SENATE REPORT

The Senate concurs with the Branch Budget.

CONFERENCE REPORT

HOUSE REPORT

Replaces "Part VII" (page 196) of House Bill 468 ---ROAD FUND REDUCTION PLAN

Pursuant to KRS 48.130 a Road Fund Reduction Plan is established for state government for FY 1992-93 and FY 1993-94. In the event of a reduction (revenue shortfall) in the estimated Road Fund revenue receipts of $773,638,100 in FY 1992-93 and $799,665,200 in FY 1993-94 and the head of the

Executive Branch shall implement reductions in the following sequence:

1. All Statutory programs are adjusted to equal revised estimates.
2. Moneys in the Road Fund Surplus Expenditure Account are applied.
3. All Road Fund Supported Vacancy Credits.
4. Savings realized from the freezing of all permanent full-time nonmerit vacant positions. Any permanent full-time nonmerit positions that may become vacant subsequent to the reduction declaration shall not be filled during the fiscal year and the resulting savings shall go toward the reduction.
5. Any savings realized from unexpended surplus lease-rental payments (to the Turnpike Authority).
6. The Highway Construction Contingency Account and State Resurfacing Program shall contribute at the same level, up to $5 million.
7. The General Administration and Support unit shall participate in the reduction.
8. The Vehicle Regulation appropriation unit shall participate in the reduction.
9. The Maintenance program, within the Highways appropriation unit shall contribute up to $2 million to the remaining targeted reduction balance.
10. The Highway Operations program within the Highways appropriations unit shall contribute up to $1 million to the remaining targeted reduction balance.
11. Highway Construction projects which appear in the 1992-94 Biennial Highway Construction Program shall participate in the following manner: Projects scheduled for the "Design" phase may be delayed one fiscal year. If a project in the subsequent fiscal year is delayed, due to the inclusion of the "reduction" year project, then only a project that is scheduled for "Design" may be delayed.

Replaces "Part VIII" (page 197) of House Bill 468--ROAD FUND SURPLUS EXPENDITURE PLAN

Pursuant to KRS 48.140, the expenditure of surplus monies as defined in the cited statute shall be as follows: 50% of the excess (up to $8 million) shall be deposited in the Highway Construction Contingency Account and the remaining balance shall be deposited in the Road Fund Surplus Expenditure Account.

WEIGHT DISTANCE SURTAX SUNSET PROVISIONS:

If the actual Road Fund receipts for FY 1992-93 exceed the Official Road Fund Revenue Estimate then the amount above the estimate, exclusive of the amount statutorily credited to county and municipal governments, would reduce or replace the Weight Distance Surtax revenue in FY 1993-94 (for which the budget is built on) and the Weight Distance Surtax shall be adjusted accordingly to generate the difference between the surplus and the FY 1993-94 official weight distance surtax revenue estimate of $19.3 million. If the amount of surplus, exclusive of the statutory amounts equals or exceeds the estimated revenue from the Weight Distance Surtax in FY 1993-94, then such moneys shall replace the Weight Distance Surtax in FY 1993-94 and the tax shall sunset at June 30, 1993.

SENATE REPORT

The Senate concurs with the House with the following exception: The Branch Budget's Road Fund Surplus Expenditure Plan is accepted.

CONFERENCE REPORT

The Conference concurs with the House with the following exception: The Weight Distance Tax Sunset provision is added to the Road Fund Surplus Expenditure Plan. This provision becomes the first priority in the utilitization of any Road Fund surplus.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs. General Fund monies recommended include $719,600 in FY 1992-93 in continuing appropriations. This is in contrast to no continuing appropriations used to support program activities in the Transportation Cabinet Agency request. Reductions in the General Fund appropriation by the Branch Budget will limit the services that this appropriation unit provides to local public airports around the state for capital projects. The reductions also represent a possible redirection of the continuing appropriation monies from projects, where commitments have been made, but local funding is not available as planned, to other projects. Projects may be funded up to a level to cover estimated costs in a given fiscal year, rather than in total, allowing more projects to be started.

HOUSE REPORT

The House concurs with the Branch Budget.

SENATE REPORT

The Senate concurs with the House.

CONFERENCE REPORT

The Conference concurs with the House and the Senate with the following exception: General Fund monies totaling $1 million in each year of the next biennium are added to Air Transportation, to be expended in the following order:

The Transportation Cabinet shall install navigational landing aids at the airports that were funded by the 1990 General Assembly, but were not installed, before the installation of navigational aids at any other airport. Secondly, all federal monies made available for airport construction projects shall be matched to the extent possible. If any of the above General Fund monies are available after the above noted usages, then the Transportation Cabinet shall install navigational aids at the other publicly owned airports around the Commonwealth, that were proposed to the General Assembly by the Transportation Cabinet. Those airports are listed below with the respective estimated costs.

BUDGET MODIFICATION REPORT

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing program activities in several areas of the Highways appropriation unit and redirects monies in the Construction programs. Road Fund monies recommended for the Construction program in each year of the next biennium represent a reduction from the current year revised construction budget. Furthermore, monies have been redirected within the State Construction program. Total recommended appropriations to the State Construction program amount to $131.8 million in FY 1992-93 and $115.4 million in FY 1993-94, compared with current year funding, $164.9 million. The Branch Budget recommends appropriations in the State Construction Program to specific subprograms as follows:

-Continued-

Sub Program	FY 1991-92(Rev.)	FY 1992-93	FY 1993-94
1. Highway Construction/Contingency Account*	23,000,000	30,505,000	15,000,000
2. Secretary's Emergency Fund		20,000,000	20,000,000
3. State/County Bridge Program	10,000,000	6,000,000	6,000,000
4. Parkway Rehabilitation		10,000,000	12,400,000
5. Specific "SP" Projects	131,956,200	65,316,500	61,998,500
Total	**164,956,200**	**131,821,500**	**115,398,500**

*The "Highway Construction Contingency Account" is analogous to the Secretary's Discretionary/Contingency Account that was funded by the 1990 General Assembly at $23 million each year. This account was established in House Bill 929 in the 1990 General Assembly.

The impact of the recommended allocations to the various sub programs within the State Construction that are included in the Branch Budget and noted in the "Recommended Biennial Highway Construction Program" is a redirection of monies from specific "line item" projects as defined in KRS 176.420(2) and 176.430.

The "State Resurfacing" program is recommended to be funded at $48 million in each year of the next biennium. Additional Road Fund monies have been recommended in the amounts of $13.7 million in FY 1992-93 and $8.4 million in FY 1993-94 to be used to match federal highway apportionments. This recommendation would provide $66.9 million and $61.8 million in each respective year of the next biennium to match federal monies on highway projects.

The Branch Budget further recommends that the following Kentucky Revised Statutes be suspended for the next biennium:

KRS	SUBJECT	EFFECT	FY 1991-92	FY 1992-93	FY 1993-94
KRS 138.660(4)	Weight Distance Surtax	Extension of 1.15 cents per mile through the next biennium.		$18,400,000	$19,300,000
KRS 175.505	Debt Payment Account	Usage of Fund Balance.		23,849,000	
KRS 175.505	Debt Payment Account	Usage of any Investment Earnings.			
KRS 175.505	Debt Payment Account	Suspension of Statutory Appropriation from 5 cents gas tax.		12,000,000	
KRS 47A	Appropriations Act	Redirection of the Snow and Ice Removal investment earnings.			
TOTAL				**$54,249,000**	**$31,300,000**

Projects proposed to be funded from the monies that have been noted above are included as "SP" (state construction) projects, and segregated (with the exception noted previously) in this budget.

The Branch Budget provides for the usage of additional federal monies, that are projected from the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). Included within the usage of federal monies is funding to develop a highway management system and to support two permanent full-time positions. Additionally, federal monies are provided to support $106.5 million in federal "Demonstration Projects" in FY 1992-93.

HOUSE REPORT

The House concurs with the Branch Budget recommendations with the following exceptions: $150,000 in Road Fund monies were provided in each year of the next bienium to support the Research program. Road Fund monies in the amount of $2 million in each year of FB 1992-94 were redirected from the State Resurfacing program to the Deferred Construction Project Fund. The House recommended appropriations of $46 million in each year of the next biennium represents the amount needed to keep the resurfacing cycle at the ten to twelve year cycle. $100,000 has been redirected each year from the Revenue Sharing Programs to support the Technology Transfer Program at the Kentucky Transportation Center. The $100,000 each year were allocated among the County, Rural Secondary, and Municipal Road Aid programs in the amounts that are denoted in the Revenue Sharing section of the House Report.

-Continued-

With respect to the State/County Bridge program, in which the Transportation Cabinet aids counties in replacing deficient bridges, the House concurs with the recommended appropriation of $6 million in each respective year of the biennium, but with the following provision: The basis on which the appropriations of the State/County Bridge Program monies shall be expended is as follows: Each Transportation Highway District shall receive a percentage (of the appropriation) equal to its percentage share of the total eligible bridges in the Commonwealth.

State Parkway Rehabilitation Program monies in the amount of $2 million in FY 1993-94 were redirected to the Deferred Construction Project Fund. This program is now funded at $10 million in FY 1992-93 and $10.4 million in FY 1993-94, from the Road fund. The Secretary of Transportation shall implement a Kentucky wildflower planting program as a natural memorial celebrating the Commonwealth's Bicentennial on the state-owned property surrounding the west appproach to the twin bridges crossing the Kentucky River in Franklin County. This site at the Kentucky River and Benson Creek is the juncture of the Commonwealth's original three counties, that were established in 1780: Jefferson, Fayette, and Lincoln. It is the intent of the General Assembly, that monies from the Maintenance Program be used to meet any necessary parkway rehabilitation above the amount specifically appropriated for this purpose.

Monies recommended to support the Highway Construction Contingency Account as established by KRS 45.247 are increased by $4,494,500 in FY 1992-93 and by $17,999,500 in FY 1993-94. Total appropriations to the Highway Construction Contingency Account total $35 million in FY 1992-93 and $33 million in FY 1993-94. Notwithstanding KRS 45.247 (2), monies from the Highway Construction Contingency Account may be used to meet any emergency or discretionary situation, that the Secretary of Transportation deems appropriate. Any monies that have not been expended in the Highway Construction Contingency Account at the end of FY 1992-93, shall be transferred to the Deferred Construction Project Fund.

The Secretary's Emergency Fund was not funded in the House report. This action freed $20 million of Road Fund monies in each year of the next biennium. Disposition of these monies are recommended as follows: In each year of FB 1992-94, $150,000 was redirected to the Research program, that is mentioned previously in the House Report; addtional monies were added to the Highway Construction Contingency Account; and the balance of monies in FY 1992-93 ($15,355,500) and in FY 1993-94 ($5,850,500), were redirected to the Deferred Construction Project Fund.

The House establishes for FB 1992-94, the Deferred Construction Project Fund. Recommended appropriations to this fund, total $17,355,500 in FY 1992-93 and $5,850,500 in FY 1993-94. It is the intent of the House, that this fund be set up as a seperate and distinct account from the other highway construction accounts. The Deferred Construction Project Fund shall be used to complete projects, that were included in the 1990-92 Biennial Highway Construction Program, a part of the FB 1990-92 Final Enacted Budget Memorandum, but did not get built and are not otherwise scheduled to be built in FB 1992-94 Biennial Highway Construction Program, to the extent that this fund will support. Furthermore, the Deferred Construction Project Fund shall be used to support projects in the 1990 Six Year Plan, as approved by the 1990 General Assembly, that were scheduled in FY 1992-93 or FY 1993-94, if those projects are not otherwise scheduled to be built in the FB 1992-94 Biennial Highway Construction Program. This issue would be sold in FY 1992-93 and is projected to generate $160 million (in construction proceeds) to the FY 1992-93 Construction budget. This additional item represents a reduction from the Transportation Cabinet Agency Budget Request, which called for a $300 million bond issue and a corresponding debt service payment of $30.8 million in each year of the next biennium.

Message from the Governor

The Clerk announced receipt of the Veto Message on **HB 776**. Date Received: April 7, 1992 Time Received: 10:50 a.m.

The veto message on **HB 776** is as follows:

"Pursuant to the authority vested in me by Section 88 of the Constituion of the Commonwealth of Kentucky, I, Brereton C. Jones, Governor of Kentucky, do hereby veto House Bill 776. As introduced, this bill would have required the board of directors of the Kentucky Employees Retirement Systems to take into account the market value of the system's assets in determining the employer's required contribution rate. However, a House amendment to the bill mandates some extremely expensive benefit enhancements to the various retirement programs operated by the system. The actuary for the retirement system has indicated that this amendment will cost state and local governments and, therefore Kentucky taxpayers, an additional $110,500,000 per year to adequately fund. No moneys have been appropriated by this year's executive budget to pay the state's portion ($62,000,000) of this cost and the budget bill limits the state's contribution to the retirement system for the next two years to current contribution levels. The result will be that the next regular session of the General Assembly will need to repay the $124,000,000 in arrearage for the 1992-94 biennium and fund the additional $62,000,000 each year of that biennium's budget cycle. The cost to local government will be immediate. If this bill becomes law, the retirement system will have to immediately change the contribution rate paid by local governments beginning July 1 of this year. The system has estimated the additional cost to the city of Louisville at $6,500,000 per year and to the Jefferson County Government at $9,500,000 per year. Neither of these governments has currently budgeted for this increase."

(Signed) Evelyn Marston, House Clerk
April 7, 1992

The Clerk announced receipt of the Veto Message on **HB 20** and **HB 468**. Date Received: April 13, 1992 Time Received: 5:30 p.m.

The veto message on **HB 20** is as follows:

"Pursuant to the authority vested in me by Section 88 of the Constitution of the Commonwealth of Kentucky, I, Brereton C. Jones, Governor, do hereby veto House Bill 20. A Senate Amendment to this bill enables the Department of Fish and Wildlife to authorize activities that would otherwise be violative of Kentucky's prohibition against the inhumane treatment of animals. The General Assembly has already, by statute, exempted certain activities, such as hunting and fishing, from coverage by the law. It should not and cannot delegate to an executive agency the authority to exempt other activities. In addition, the subject wording could have the effect of establishing the legality by statute of such practices as "shake-out" hunting, which I believe are unduly cruel to animals.

(Signed) Brereton C. Jones, Governor
April 13, 1992

(Signed) Evelyn Marston, House Clerk
April 13, 1992

The veto message on **HB 468** is as follows:

Corrections Cabinet

HB 468 - Item # 1

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item # 1 on

page 71, line 12 beginning with the word "The" and ending on line 19 with the word "Memorandum."

page 216, line 22 beginning with the word "Adult" and ending on page 217, line 4 with the word "Act."

This item specifies that each of fourteen individual correctional institutions or programs will be separate appropriation units in contrast to the historic situation whereby the Department of Adult Institutions is the single appropriation. There is no language that will permit Corrections to transfer funds between appropriations units within the Department of Adult Institutions without adhering to a cumbersome administrative process. This language will limit management flexibility Corrections might have when it attempts to implement the budget.

HB 468 - Item # 2

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item # 2 on

page 217, line 13 beginning with the word "Institutional" and ending on page 218, line 23 with the word "Fund."

This item attempts to legislate how the available correctional beds of the Department of Corrections will be utilized. It will only allow for double-bunking in extreme situations, and should the prisoner population decrease, then the Department must revert to single bunking. Once staff and other fixed costs are in place for double-bunking, it is not cost effective to discontinue the process. This language attempts to dictate a specific bed utilization policy for the Department of Corrections. This is micromanagement of the state's felon population and will create major day-to-day problems.

HB 468 - Item #3

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item # 3 on

page 219, line 4 beginning with the word "Any" and ending on line 7 with the word "only."

This section would liberalize the requirements of a private vendor to house sentenced female state felons under contractual agreements. Corrections currently has one such contract which, according to its General Counsel, could not be forced to be changed by this language. Only future contracts or extensions of a present contract could be effected. However, changing operating procedures from a minimum security prison environment to those of a halfway house as is mandated by this language could compromise the security of such a facility and the safety of the staff and the general public.

HB 468 - Item #4

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item #4 on

page 219, line 12 beginning with the word "Contract" and ending on line 16 with the word "vendors.'

This section would require all contract beds which house state prisoners to be fully utilized before additional beds could be added. Once again, as previously stated, such language is unduly restrictive and limits Corrections' ability to manage its resources.

Department of Education

HB 468 - Item #5

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item # 5 on page 27, line 7 beginning with the word "Lottery" and ending on line 8 with the word "Proceeds."

page 27, line 10 beginning with the word "The" and ending on line 22 with the word "appropriated."

The earmarking of Lottery proceeds for local school districts may give the public the false impression that public elementary and secondary education is being funded at a totally sufficient level. In fact, this is merely a General Fund fund source substitution and the amount of Lottery proceeds being made available is deducted from the original General Fund appropriation. Thus, no increase in total education funding took place as a result of this action. In addition, we are concerned about establishing a financial precedent of earmarking individual General Fund fund sources to specific programs. This is contrary to sound public budgeting principles. Moreover, the Lottery Commission considered, but rejected, the idea of recommending earmarking Lottery proceeds for specific purposes in the constitutional amendment and the General Assembly did not dedicate Lottery proceeds when it established the Lottery in the statutes.

Transportation Cabinet

HB 468 - Item # 6

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item # 6 on

page 96, line 20 beginning with the "," and ending on line 21 with the word "Act."

page 204, line 7 beginning with the word "In" and ending on line 14 with the ":"

page 228, line 19 beginning with the word "Weight" and ending on page 229, line 8 with the word "1993."

These provisions will cause the weight distance surtax to sunset or be reduced after June 30, 1993, if the receipts to the Road Fund for fiscal year 1992-93 exceed the official estimate. It is shortsighted to potentially reduce the revenue base of the Road Fund by some $19-$20 million annually, when this Fund has experienced shortfalls of more than $87 million throughout the previous biennium. Furthermore, it should be noted that a lawsuit is still pending seeking $59 million in truck tax refunds. Additionally, the General Assembly enacted a Road Fund Surplus Expenditure Plan. This plan sets aside half of any excess receipts in a reserve and allows the Cabinet to use 50 percent (up to $8 million) to undertake additional highway projects. Also, the sunset provision will likely forestall the enacted Surplus Expenditure Plan from being implemented at the end of fiscal year 1992-93, thereby preventing or delaying needed highway improvements and eliminating a potential "rainy day" fund.

HB 468 - Item # 7

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item # 7 on

page 91, line 7 beginning with the word "Included" and ending on line 8 with the word "Study."

The funding for this study was retargeted from the Paducah-Kevil Rail Rehabilitation project. This project is considered an important step in the Commonwealth's efforts to attract the AVLIS project to Western Kentucky. That project itself will potentially employ over 1,300 people. The Governor's recommendation of $500,000 represented partial funding in an amount which is considered to be the minimum state participation necessary to assure continued operation of the rail service to the employer's facility. The 1990 General Assembly formally recognized the importance of this project to the economy of the region by enacting Senate Concurrent Resolution 92. The Transportation Cabinet has historically engaged in a multi-modal planning and the recent passage of the Intermodal Surface Transportation Efficiency Act by the federal government significantly increased the amount of money available for this function. The current multi-modal planning program within the Transportation Cabinet continually assesses the needs and proper role of rail service in the state's transportation system. Therefore, the above mandate would be redundant and unnecessary.

Public Protection and Regulation Cabinet

HB 468 - Item # 8

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item # 8 on

page 223, line 18 beginning and ending with the second number of $1,000,000" (1993-94).

This veto eliminate the $1 million appropriation for the Revolving Loan Fund in fiscal year 1993-94 only. This action preserves the $1 million fiscal year 1992-93 appropriation to the Revolving Loan Fund as authorized in House Bill 365. This is being done in the interest of preserving the financial solvency of the Professional Firefighters' Fund. Additional financial obligations have been imposed the Fund beginning in the new biennium to include providing Hepatitis B immunizations, providing additional funds for pension reimbursement, providing additional Workers' Compensation coverage, providing increased grants to volunteer fire departments, etc., which in the aggregate will cost the Fund over $6 million more than what was contained in the Governor's budget recommendation to the General Assembly. Finally, it is worth noting that the Revolving Fund Loan is the only instance where the Conference Committee provided more for an individual expenditure item in this Fund than the amounts provided by the Governor, the House, and the Senate in both fiscal years of the upcoming biennium.

Cabinet for Human Resources

HB 468 - Item # 9

Pursuant to the authority vested in me by Section 88 of the Constitution of Kentucky, I, Brereton C. Jones, Governor of the Commonwealth of Kentucky, do hereby veto the following distinct item # 9 on

page 213, line 25 beginning with the word "Funding" and ending on page 214, line 20 with the word "position."

This item attempts to legislate, in a very detailed fashion, substantial limitations on a variety of personnel management matters within the Cabinet for Human Resources. Specifically, this provision would limit, by department, the number of non-merit positions and would also prescribe compensation levels for reverting merit system employees during a six and one-half year time period. The Cabinet for Human Resources is the only organizational entity within state government where the General Assembly has prescribed in the Appropriations Act these very stringent personnel measures. While a high priority of the Jones' Administration is to hold the line on the growth of government, including the Cabinet for Human Resources, this legislative micromanagement would intrude on the Cabinet's ability to effectively manage its personnel resources. Clearly, a certain amount of administrative flexibility is appropriate and necessary in managing state government in a time of severe restraint. This item raises serious questions of equity, equal protection, and due process inasmuch as no other cabinet or department in state government would be so severely limited in its personnel management as the Cabinet for Human Resources if this provision stands.
